## Description

### SUMMARY

Complete and versatile, SHARK-TX is the only 1/4 DIN and DIN rail mountable two wire transmitter on the market that allows the user to select one of four measuring parameters.

### FOUR MEASURING PARAMETERS

Select the parameter you wish to measure from the easy-to-use LCD menu on the front cover. Choose Conductivity, pH, ORP or Flow.

### COMPLETE - NO EXTRA CARDS OR OPTIONS REQUIRED

Each SHARK-TX comes complete. There are no extra costs associated with buying boards for different applications.

### TWO MOUNTING OPTIONS

SHARK-TX comes complete with a universal mounting kit for surface, panel and pipe-mount applications. The NEMA 4X 1/4 DIN enclosure is perfect for stand-alone or panel-mount operation.

SHARK-TXP is NEMA 4X for front

panel mounting and comes complete with DIN rail mounting hardware for mounting in a control panel.

### DISPLAY

2-line, 16-character LCD on the front panel.

### ANALOG OUTPUTS

The SHARK-TX provides an isolated and fully scalable 4-20 mA output.

### ENCLOSURE

SHARK-TX is packaged in a rugged NEMA 4X polycarbonate enclosure making it ideally suited for heavy-duty applications such as industrial wastewater neutralization, municipal water and wastewater, pulp and paper, and process control. The SHARK-TXP enclosure is also polycarbonate with a NEMA 4X front panel, and DIN rail mounting hardware on the back.
